

MOVE ACOUSTIC

by ARDE DESIGN

CHAT BOARD® product sheet

Move Acoustic

CHAT BOARD® Move Acoustic seamlessly combines the signature magnetic and writable glass board with a class A acoustic panel in two perfectly proportioned movable room dividers, created to shape multi-functional and creative spaces within spaces. Perfectly finished in Remix Screen (90% new wool, worsted, 10% nylon) or Relate Screen (100% Trevira CS) fabric by Kvadrat and featuring an ingenious, “stackable” cross-base, which allows you to store several units in even the smallest space, Move Acoustic offers style as well as substance without compromising on either.

The writable glass surface is the ideal facilitator of free-flowing brainstorming sessions and provides the obvious focal point of shared ideas and information in the corporate conference room, open office space and classroom alike, while its high-performing acoustic panel ensures the balance in visual and auditory exchange.

Ensuring cost-effective and safe transportation, the wide version is delivered in two pieces and easily assembled on site.

The movable aluminium base is powder coated in Jet Black (RAL 9005) and fitted with brake casters for added stability. The glass is 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. The wide Move Acoustic comes prepared to be mounted with the TV bracket* of your choice (not included), and both sizes are available in 25 standard glass colours and can also be made to order in bespoke standard RAL or NCS glass colours. The standard assortment includes 6 Remix Screen and 6 Relate Screen fabric colours by Kvadrat, but requests for alternative colours and varieties can be accommodated on demand.

*NB TV screen should not exceed dim. 50"/ W 1110 x H 600 mm

Please contact our head office with any special requests: info@chat-board.dk
